- All products are deigned & manufactured to your exact sizes, and then shipped to you for installation

ROOFS

FLAT 3" INSULATED ROOF

- * Super Foam 3" insulated roof panels are most popular roof system, and is used mainly in our sunrooms
- * The Super Foam is a weather proof aluminum exterior that removes potential rusting, and is specially treated panel that warms up the inside of your room
- * Our roof system provides superior strength, rigidity and no condensation buildup; it has an exclusive standing ridge with aluminum cleat cover that means no exposed caulking and no leaks
- * Our Super Foam roof panels retain gleam and shine longer than normal painted finishes because they are surfaced with two coats of bonded paint
- * A final coat of scratch resistant finish is then applied as a protective seal.

GLASS ROOF

- * All glass roof panels are built in-part of the roof giving you maximum flexibility in placing them for optimal lighting and view
- * Our glass roofs have an exclusive high-performance for your home while the classic design melds flawlessly with your existing architecture
- * This affordable sunroom adds value to your property and your quality of life
- * Roof with aluminum frame can be 6 mm tempered, and laminated with clear and bronze tinted glass.

AWNINGS "FUTURE"

- * Beautiful 'Future' awnings let lots of light come through while at the sametime offering protection from inclement weather
- * 'Future' awnings filter sunlight to protect curtains and furniture
- * 'Future' awnings are elegant yet strong
- * 'Future' awnings are made with a European glass décor with a sturdy aluminum frame fitted with 4 mm tempered glass.

COLORS AVAILABLE

SHOWER ENCLOSURES

- * Shower can be in any style and custom design
- * This includes Door Pulls and Knobs, Towel Bars, Glass Clamps, Headers, U-Channels, Thresholds, Frameless door kits, Wipes and Seals, bathroom Mirrors, and Decorator Accessories
- * All showers door come with safety tempered Glass
- * Back-to-back pull handle (19 mm Diameter heavy brass tubing)
- * Prehung and drilled for hardware
- * Heavy-duty finished solid brass hinge
- * U-channel for fixed panels and swinging doors
- * H-wipe can be used as a bottom sweep or as a seal if it runs vertically up the edge of the door.
